Learning Objectives for 2006 Annual Meeting

Brachytherapy is used in the treatment of many neoplasms and other related diseases. At the 2006 annual meeting:

- The participant will be able to identify newer imaging techniques that can be integrated into the practice of brachytherapy
- The participant will be able to evaluate the quality of brachytherapy using dosimetric quantifiers
- The participant will be able to describe the recent advances in the treatment techniques

CME Statement for 2006 Annual Meeting

Accreditation and Credit
This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the School of Medicine, Virginia Commonwealth University, Medical College of Virginia Campus (VCU) and American Brachytherapy Society (ABS). VCU is accredited by the ACCME to provide continuing medical education for physicians.

Physicians may claim up to 19 hours in Type 1 or Type 2 CME on the Virginia Board of Medicine Continued Competency and Assessment Form required for renewal of an active medical license.

VCU designates this educational activity for a maximum of 19 AMA PRA Category 1 Credit(s)™. Physician’s should only claim credit commensurate with the extent of their participation in the activity.

This continuing education activity meets the criteria of Virginia Commonwealth University and the Southern Association of Colleges and Schools. .19 CEUs will be awarded and recorded with the University.

Conflict of Interest and Off-Label / Disclosure Statement

Presenters at this conference will disclose any conflict of interest or their intention to discuss off-label use, if applicable, in accordance with ACCME Standards and FDA requirements. Conflicts of interest will be disclosed in print or in the final meeting materials.

**Wednesday Night Welcome Reception**

Everyone is invited to attend the Welcome Reception on Wednesday night at the Marriott, to be held in our exhibit hall (Franklin Hall B).

We hope to see you there!
Tuesday, May 9
11:00 am – 6:00 pm  Exhibitor set-up and Exhibitor Registration
1:00 pm – 6:00 pm  Registration

Wednesday, May 10
6:30 am – 5:00 pm  Commercial Exhibits
6:30 am – 7:00 am  Continental Breakfast
7:00 am – 5:00 pm  Registration
7:00 am – 7:55 am  Audience Interactive Refresher Course: Prostate Cancer
                   Michael J. Zelefsky, MD
                   Memorial Sloan-Kettering Cancer Center
                   New York, NY
7:00 am – 7:55 am  Cervical Treatment Physics
                   Parallel Session
                   Moderator: Jerome A. Meli, PhD
                   Memorial Sloan-Kettering Cancer Center
                   New York, NY
                   Panelists: Ning Yue, PhD
                              University of Pittsburgh
                              Pittsburgh, PA
                              Ali S. Meigooni, PhD
                              University of Kentucky Medical Center
                              Lexington, KY
                              Zoubir Ouhib, MSc
                              Lynn Regional Cancer Center
                              Delray Beach, FL

Acknowledgment of 2006 Annual Meeting
Commercial Support

The American Brachytherapy Society would like to acknowledge the support, through an
unrestricted educational grant, of the following organizations:

- **Best Medical International** (Ulrich Henschke Memorial Award)
- **Nucletron** (Judith Stitt Paper Awards)
- **Oncura** (Resident Luncheon, Resident Travel Grant Awards, Resident Prostate Brachytherapy
  Fellowship Program)
- **Theragenics Corporation** (ABS Membership Luncheon)
- **Varian BrachyTherapy** (Gala Event)

Annual Meeting Gala Event

*Sponsored by Varian BrachyTherapy*

The ABS would like to acknowledge the support of the 2006 Gala Event by Varian
BrachyTherapy, through an unrestricted educational grant. This year’s event will be held on
the Ship Moshulu at Penn’s Landing. Enjoy light food, drinks and music while networking and
talking with fellow attendees, exhibitors and guests. This event is included in the registration fee
for attendees and guests, however exhibitors are required to register separately at a fee of $100.
Join your colleagues for this year’s Gala Event. Meet in the hotel lobby at 6:15 pm on the 12th
Street side of the lobby.
Franklin Hall B (Hotel Level Four)
The American Brachytherapy Society extends a sincere thank you to all of our corporate supporters and we encourage all attendees to visit with our exhibitors over the course of the meeting.

Meet Our Exhibitors and Be Eligible for Prize Drawings!

Your attendee packet includes a signature card for each exhibiting company. Get your card completely filled out and turn it in to the ABS registration desk by 4:00 pm on Thursday afternoon. On Friday morning there will be three prize drawings for those eligible to participate. Prizes will include two I-Pods and a Blackberry wireless handheld data organizer.

Jeffrey F. Williamson, Ph.D.

Jeffrey F. Williamson, Ph.D., FAAPM, FACR, began his graduate education in History and Philosophy of Science at Princeton University. While on leave from this program, Dr. Williamson encountered radiation oncology, becoming a dosimetrist at the University of Minnesota in 1976 under Faiz Khan (the first such position in the entire state). While working full-time as a dosimetrist or junior clinical physicist, Dr. Williamson joined Minnesota’s Biophysical Sciences graduate program, earning his M.S. and Ph.D. degrees in 1980 and 1982, respectively. After serving as an instructor and assistant professor of Therapeutic Radiology, he moved to the University of Arizona in 1983, eventually rising to the rank of Associate Professor and Director of Physics. In 1989, he moved to Washington University, where he served as Professor of Radiation Oncology, Chief of Brachytherapy Physics, and Associate Director of Physics at the Mallinckrodt Institute of Radiology. In 2002, Dr. Williamson was recruited by Rupert Schmidt-Ullrich to chair the Medical Physics Division at Virginia Commonwealth University, where he now serves as Professor of Radiation Oncology. Dr. Williamson is known nationally for his many contributions to brachytherapy, including application of radiation transport calculations to dosimetry and treatment planning, quantitative experimental dosimetry techniques, CT and MR-guided therapies, CT physics, and quality assurance and clinical practice standards. Dr. Williamson has authored or coauthored approximately 130 papers in peer-reviewed journals; 45 book chapters, proceedings papers or invited review articles; and one book. He has been principal investigator of eight funded R01 grants and numerous industrial contracts and serves on many review and consensus panels by NIH, NIST (National Institutes of Standards and Technology), ICRU (International Commission on Radiological Units and Measurements, the U.S. Nuclear Regulatory Commission (U.S. NRC), and the AAPM (American Association of Physicists in Medicine). As Chair of the AAPM’s Photon-Emitting Brachytherapy-Dosimetry Subcommittee, he played a key role in standardizing prostate seed dosimetry. As an educator, he has participated in the mentoring of nearly 35 physicists through post-doctoral research and clinical physics residency programs and in 2003, initiated a Ph.D. program in Medical Physics.

It is a pleasure to honor Jeffrey Williamson with the 2006 Ulrich Henschke Award. The Henschke Award is the most prestigious award presented by the ABS in recognition of contributions made to the profession.
Past Ulrich Henschke Award Recipients

1981 Basil Hilaris, MD
Primary Irradiation on the Management of Cancer of the Breast

1981 A.M. Nisar Syed, MD
High Activity Source After-loading in Gynecological Cancer and Its Future Prospects
